

COVID-19 Statement

Following the Government announcement, our depot will remain open for business to support agricultural production.

Cotswold Farm Machinery continues to monitor the current situation in regards to the COVID-19 outbreak and is monitoring the situation on a daily basis. Our priority is the safety of our staff and customers. We are taking all sanitary measures possible to ensure we follow the UK Government guidelines relating to COVID-19.

Following the Government guidelines, we request customers adhere to the below:

Service

Our field service team will still be making essential farm visits, but will follow all hygiene guidelines and we ask that all customers ensure these control measures are put into place on farm to protect themselves and our engineers. Our service team will discuss appropriate control measures with customers prior to these essential farm visits.

Parts

Our parts team are still contactable by email and telephone and customers are allowed into the depot to order and collect parts. Please ensure you are wearing face masks and use the hand sanitiser point upon entry to the building.

If you wish to use the parts collection point, then please call ahead of your visit to order parts and these will be left at the parts collection point for you.

Sales

Our sales team are available to discuss any customer enquiries via email or telephone. Please see our website for contact details.

Cotswold Farm Machinery aim to do our very best to support our loyal farming community during this time.
